Vicon Vue
Clear. Precise. Effortless.

Vue Clear. Precise. Effortless.

Vicon Vue is the industry's only High Definition fully synchronised high resolution video camera that does not sacrifice speed for clarity.

Vue Features

Clear

With full HD resolution, Vicon Vue brings the sharpest video image into your motion capture volume.

Precise

Synchronous calibration with your Vicon optical cameras means your optical and video views are perfectly aligned capturing the finest details.

Effortless

Connecting your Vue camera is the set up process.

Compatibility

Are you an existing T-series, Bonita or Vantage customer looking to add more? Vue is compatible with all of these generations of optical cameras.

Bonita 720c
